

## 2.3.1\_Participative Learning

Department of Biochemistry

Hislop College, Nagpur

Participative Activity Conducted in B.Sc. Semester IV

Students of B.Sc. Semester IV Biochemistry were grouped as "Triads" (Group of 3) who were assigned the work of Identifying few topics for preparation of teaching aids based on the curriculum of previous Semester. These groups worked in tandem for the synthesis of an audio-visual teaching aid all by themselves under the assigned facilitators. These triads used specific WhatsApp group to share their ideas and views during the activity. The names of the groups are: **Triad UMS, Triad VSP and Triad HSP**. The screenshots of the WhatsApp group communications and the links for the audio visuals are provided below as the proof of the activity.

**Members of Triad UMS:**

1. Umme Shamama,
2. Mrunmayee Shende
3. Shreyas Bhise

**Members of VSP:**

1. Vishakha Thakre
2. Sakshi Thakre
3. Pratidnya Sahare

**Members of Triad HSP:**

1. Harsh Raj
2. Sakshi Naitam
3. Piyali Meshram

Hi friends you have to create a research based teaching tool... for highschool students...

Okay mam

Just explore what is RBPT  
Research based pedagogical tool

Ma'am sorry I was late

And what you understood post it here

Hi friends you have to create a research based teaching tool... for highschool students...

Okay ma'am

Ma'am what is RBPT

Ok mam

Just explore what is RBPT  
Research based pedagogical tool

You  
Hi friends you have to create a research based teaching tool... for highschool students

And what you understood post it here

So Ma'am do we have to create choose a topic for RBPT ?

Okay ma'am

You  
Just explore what is RBPT  
Research based pedagogical tool

Okay ma'am

Or RBPT itself is a topic ?

Ma'am its a easy way of presenting something which is very easy to understand and in simple language, which make our learning experience better than earlier.

Yes choose a topic to create a tbpt

Which is not analytical  
I might be not right

Once you choose a topic , declare first so that I can others taking that topic

# PROBLEM SOLVING METHODOLOGIES

## Use of Organizational Case Studies: Class room discussions and B.A Sem V Assignments by Dr. Sonal Paliwal

**Programme : Power Point Presentation Competition**

**Date : 27<sup>th</sup> February, 2020**

**Venue: Room no. 103**

**Participants: 45**

Department of Commerce organized Power Point Presentation Competition for the PG students on 27<sup>th</sup> February 2020 at 10.00 am. The main purpose of the competition is to instill and develop the skill of stage presentation as well as to encourage the competitive spirit amongst the students and to update their academic knowledge. Around 45 students participated in the competition. The faculties judged the participants on various aspects such as originality, creativity, overall presentation etc. All the participants presented their topics creatively and enthusiastically. Head of the Department Dr. Hariom Puniyani and all the teachers appreciated the efforts of the participants. The winners of the competition were as follows-

1<sup>st</sup> Prize- Vedanti Mahalle

2<sup>nd</sup> Prize- Fatema Ali

3<sup>rd</sup> Prize- Aishawrya

Consolation Prize- Nikita Chawla

Consolation Prize- Himanshu Madake

## Reboot your nervous system ...Reboot your life

**Nisha Vishnupant Kimmthkar**

## Nervous System

The nervous system is a complex network of nerves and cells that carry messages to and from the brain and spinal cord to various parts of the body

The nervous system also regulates the actions of most other body systems, such as blood flow and blood pressure.

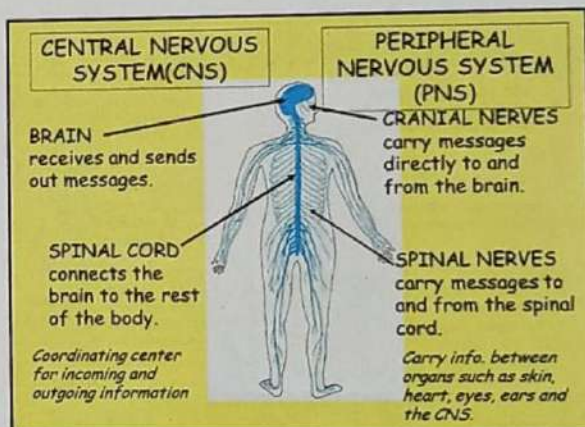

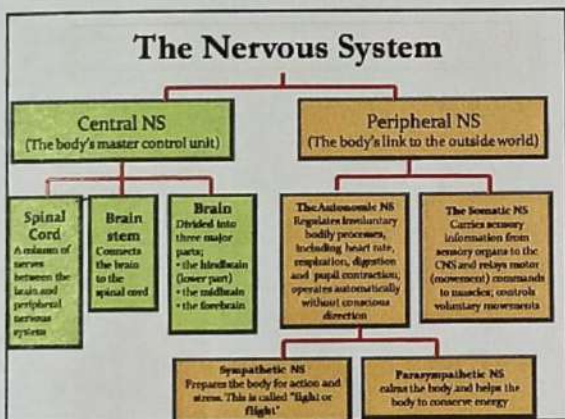

The nervous system controls: Sight, hearing, taste, smell, and feeling (sensation)...

Voluntary and involuntary functions, such as movement, balance, and coordination.

It organizes, explains, and directs interactions between you and the world around you

Nerves are cylindrical bundles of fibres that start at the brain and central cord and branch out to every other part of the body

The ability to think and reason. The nervous system allows you to be conscious and have thoughts, memories, and language.

#### SENSATION

It involves collecting information from sensory receptors that monitor the body's internal and external conditions. These signals are then passed on to the central nervous system (CNS) for further processing by afferent neurons (and nerves).

#### INTEGRATION

The processing of many sensory signals that are passed into the CNS at any given time. These signals are evaluated, compared, used for decision making, discarded or committed to memory as deemed appropriate.

### Functions

Integration takes place in the gray matter of the brain and spinal cord and is performed by interneurons. Many interneurons work together to form complex networks that provide this processing power.

#### RESPONSE

Once the networks of interneurons in the CNS evaluate sensory information and decide on an action, they stimulate efferent neurons - motor neurons carry signals from the gray matter of the CNS through the nerves of the peripheral nervous system to effector cells. The effectors may be smooth, cardiac, or skeletal muscle tissue or glandular tissue. The effectors then release a hormone or moves a part of the body to respond to the stimulus.

In the starting of the talk, HOD of the Computer department, introduced me to students and make them aware that this topic is really helpful for them in this hectic period of examination.

I started talk by interacting with them by asking questions like what makes them feel dull, stress and how they take care of there body, good habits and bad habits.

I started topic by introducing what is reboot. By taking help of slides I explained them what is the role of nervous system and why it is so important to take care . I extended my presentation by explaining causes , damages to nervous system by examples.

After giving brief idea of above things , I extended talk by explaining different ways to reboot nervous system . To make a impact on them I conducted activities e.g. unwinding ourself , and impact of thought process on nervous system , how to balance yourself by finding our centre. Students enjoyed a lot and were very eager to know the steps of rebooting our nervous system.

On the last part of the session I make them aware about how to reboot your life by healthy life Habits. They promised to follow these activities in their daily routine. Last but not the least they share their experiences and short question and answer session was conducted. The satisfaction was blushing on their faces.

At the end of the session students filled feedback forms and conveyed their thanks for conducting this session and rushed to the next class.

It was the best seminar, to  
ourselves. We really to break ourselves,  
to take time for ourselves. This is  
useful program to "Reboot our life".  
We to live be happy life.

The session was fun to know about the human nervous system. It was informative as well as helpful in improving the health of the nervous system. It covered major issues like stress, depression, anxiety, etc about overcoming them.

- 1) The session was awesome.
- 2) Yes, it is useful in our daily life.
- 3) The way of presentation is also good.
- 4) We learn many things from that session.
- 5) We also learn some new concepts about our nervous system.
- 6) we enjoy it alot.

feed back.

Thank you mam madam because of you I have give solution on our problems. and your explaining way is very best. all the information we will give is very important for student life.

The session was good. Speaker was very polite. It was helpful in many ways. It is a good thing to give time for mental health of students. They were very thoughtful to give us tips for a stress free life. Many of us do not speak of mental issues, we tend to focus on physical issues. All in all the session was good & very motivating.

Session is wonderful.

Mam is teaching the all terms of nurseries system and Reboot and they teach a good health information and they teach response, ~~it~~ integration, senses and so on.

Mam class is very interesting because all type of mentally disease mam explaining.

It was helpful for us. This will reduce our stress to a large extent. It will help us to overcome stress, depression etc.

So, it was good and helpful. It will lead us to LONG HEALTHY HAPPY LIFE.....

Yes, It is useful for our body.

It is useful for our health.

It makes a life very good forever.

So let's do exercise - Yoga daily.

Exercise is very important for our body.

Nervous system is also create a stress on nervous in our body.

\* It is very useful and interesting also.

\* It helps us to reboot our life and how to solve our daily life problems.

\* We learn how to give time to our nervous system, how to distract ourselves into the anxiety, depression.

\* It helps to how calm down in every stages of life.

\* Also be happy in every situation of our life.

## Snapshots of Awareness Talk

**Awareness Talk Entitled**  
**" Reboot Your Nervous System ,**  
**Reboot Your life"**

**Presented by**

**Nisha Vishnupant Kimmatkar**

**MA Psychology SEM III**

**Date of Presentation: 9/10/2019**

**Department: Computer Science MCA**

**Audio Video ads used: Power point presentation**

**3 Activities to understand some concepts.**

**Total No. Of students present : 30**

**Total No.of Faculties present: 02**

Students of clinical psychology ( MA Sem 4) facilitated psychological testing as well as parental counselling for students of Hislop Preschool in relation to intellectual development and adaptive behavior, using Vineland Adaptive Behaviour Scales. The two day program was held in 21<sup>st</sup> and 22<sup>nd</sup> July 2019.

Students and staff had an interactive program organizing games, fun and action songs for inmates of Nagpur Regional Mental Hospital. Inmates, hospital staff and faculty from Hislop College participated wholeheartedly on 25<sup>th</sup> July 2019

An active group exercise on Rational Emotive Behaviour Therapy (REBT) in progress in which students of MA Psychology probed aspects of behavior and cognition, facilitated by Dr. Dipti Christian, July 2019

## Science Talk Series – 2018-19

### I. Dr Alka Chaturvedi August 25, 2018

**TOPIC:** Synergy of Biodiversity & Biotechnology

**OBJECTIVE:** Engendering Scientific Awareness on Contemporary Scientific topics

**PARTICIPANTS:** 76

Dr. Alka Chaturvedi, former Head, PGT department of Botany, enlightened the students on relevant problem of Biodiversity conservation from the perspective of Biotechnology. She explained the simple and relevant concepts of effect of human population growth and global warming on agricultural biodiversity. She also discussed Conservation strategies Biotechnology as a saver of biodiversity Transgenic – the next generation. Dr. Chaturvedi madam also emphasized on policy issues like biosefety policy, human health terms and about sustainable biodiversity development.

### II. Dr Deovrat N Begde September 22, 2018

**TOPIC:** DNA Sequencing: Traditional Vs Next Generation Method

**OBJECTIVE:** Exposure to current developments in Molecular Biology.

**PARTICIPANTS:** 79

Dr Begde in his deliberation took the students through the history of sequencing methods, highlighting the pros and cons on each method. Further in his talk, he introduced the students to the various next generation high through-put sequencing methods, starting

from the basic automated Sanger's dideoxy method to the real time sequencing and pyrosequencing. Dr Begde triggered the inquisitiveness among the students and delightfully took questions from them.

## **GREENWICH FACULTY CONDUCTS ECOLOGICAL CHARACTER ASSESSMENT WORKSHOP AT HISLOP**

---

On January 4, 2019 Department of Botany, Hislop College organized a lecture session cum workshop for the students and staff member. The theme of the work shop was Urban Greening and Ecological Character Assessment. Dr. Debbie Bartlett and Dr. Sarah Milliken from University of Greenwich, London conducted both the sessions. Dr. R. J. Andrew, Vice Pricipal, Hislop College welcomed the guests.

Dr. Debbie Bartlett is associated with the study of the role of agriculture and forestry in shaping the landscape, past and present, and the impact on both natural and cultural heritage. Her current research focus is on the socio-economic aspects of the coppice industry, the farmed landscape, coastal ecology and conservation policy. She combines her role at the university, with consultancy.

Dr. Sarah Milliken is a Research Assistant at the Department of Architecture & Landscape, University of Greenwich and is a member of the 'Green Roofs and Living Walls Centre'. She is also associated with British Council UK India Research Initiative 'Ecosystem Assessment of the Habitats of the Kachchh District, Gujarat, India: Planning for Biodiversity and Livelihoods into the Future'

The session started with a case study on Invasive plant being utilized for mass benefit in rural part of Kuchch, in Gujarat. They gave a detailed report on framing of the case study with a phase wise execution plan. The phase one included Ecosystem Assessment by Mapping and Topographical characterization. The second phase was communication with the stakeholders followed by an assessment of the results. They also briefed on utilization of the invasive plant for the rural benefit in form of live fences and soil conditioners using local friendly methods.

In the second session the staff and students were engaged in a participatory workshop on Ecosystem Services assessment through judgement of ecological substitutability for future urban planning. Through the workshop they further explained that the Ecosystem function is the capacity of natural processes and components to provide goods and services that satisfy human needs, either directly or indirectly. The four primary groups of ecosystem functions regulatory functions, habitat functions, production functions and information functions were

elucidated to the participants. The workshop also emphasized on the importance of Sustainable & Green Urban Planning by assessment of Ecological substitutability. Urban development should be guided by a sustainable planning and management vision that promotes communities beneficial to human and the the environment at the same time. The provision of sidewalks, trails, and private streets, connected to transit stops and an interconnected street network within these mixed-use developments provides mobility options and helps reduce pollution by reducing vehicle trips and the value of these spaces was highlighted.

It provided an insight on how a local study can form a basis for a far-reaching solution for locals which is not only cost effective but also environment friendly. This has instilled a process of thinking among all the participants to identify and replicate their method of working in Indian conditions. The workshop also demonstrated how inferences can be drawn from surveys.

The sessions were lucid and highly interactive. As the case study was from a part of our own country, it made it easy for us faculty members to identify the problems and probable methods of solutions. It was an exposure which would help students to think about innovative ways to turn a problem into a solution. It further helped the staff and student participants gain an experiential knowledge on ecosystem assessment.

The sessions were lucid and highly interactive. It helped the staff and student participants gain an experiential knowledge on ecosystem assessment. The programme was coordinated by Dr. Shalini Dhyani, senior scientist NEERI.

# Workshop on Intellectual Property Rights (IPR-2019)

February 18, 2019

## REPORT

---

On February 18, 2019 the PG departments of Science, IQAC of Hislop College in association with Rajiv Gandhi National Institute of Intellectual Property Management organized a workshop on Intellectual Property Rights. Students pursuing Post graduation in various streams of Science attended the workshop. The resource person of the session was Ms. Pooja Maulikar, from RGNIPM.

At the onset Dr. Dipti Christian, Principal Hislop College stressed on the need of awareness on Intellectual property rights. She evoked the importance of not just doing original work but also taking credit for it. She

She further highlighted the pertinence of this talk for PG students who are on the verge of research publications and taking up research as future prospect.

Ms. Pooja Maulikar in her deliberation explained the concept of tangible and intangible properties. She explained the various components of IP and highlighted the significance of legal rights on this intangible property. She further discussed patents, trademarks, design registry, geographical indicators, copyrights and inventive steps with comprehensible examples of paper clips, ballpoint pen, Nano etc. She also discussed the common mistakes in encountered during filing of

patents and the non-patentable ideas. A good part of her lecture included a stepwise guidance for filing of patents.

She welcomed queries from the students and answered them with her expertise and experience. The lecture was lucid and the staff and students highly appreciated the session.

Dr.Mashitha Pise conducted the programme and Ms. Parama Majumdar proposed vote of thanks.

*Programme : Poster Presentation Competition*

*Date : 1<sup>st</sup> April 2019*

*Venue: Shalom*

*Participants:*

Department of Commerce organized the Poster presentation competition on 1<sup>st</sup> April 2019 i. e. Monday at 10.00 am in Shalom. The IInd and IVth Semester B. com students participated in the event with their handmade posters as well as digital posters based on the various academic topics from their syllabus. The purpose of the competition was to give a platform to the students to understand the topics with the help of posters. Dr. Supanta Bhattacharya was the Judge for the program. He appreciated the work of the students and advised some tips to improve the presentation. Dr. Hariom Puniyani, HOD, Commerce also motivated the students by his words. Dr. Harinder Kour and Dr. Dini Menon coordinated the program. Rini Roy from IInd sem and Ankush Ganjar from IVth sem won the competition in handmade poster section and Ashish Thubamlyil from IVth sem won the competition from digital section.

## Community Service

26/01/2019

Students of the department in collaboration with NSS Unit of Hislop College celebrated 26<sup>th</sup> January-Republic Day with the children of Bhandewadi Dumping Yard as a part of community service. The gifts like chocolates, pens, pencils and other utility items of the students were distributed to them. The children had great fun while playing games, eating cake and celebrating the 'Republic Day' on such a grand scale. Students reached out for this human cause.

Head  
Department of History  
Hislop College, Nagpur.

## Democracy Fortnight

25<sup>th</sup> Jan to 10<sup>th</sup> Feb. 2019

Department in collaboration with Political Science and NSS Unit conducted various programs under 'Democracy Fortnight' from 25<sup>th</sup> Jan to 10<sup>th</sup> Feb. 2019 to spread awareness among students for exercising the 'Right to Vote' and registering their name in voter list for voter ID card. The programs started from 25<sup>th</sup> Jan 2019 that is celebrated as 'National Voters Day' as well as 'Padyatra' and Street Play was organized around the college premises where students holding ply cards publicized the significance of right to vote. On 26 Jan, the chief guest for Republic Day was Air Commodore Sanjeev Gorwade. In his address, he spoke elaborately on the role of students in Democracy that was earned by scarifies of our freedom fighters. At the same time, he said that it was extremely unfortunate that we do not adhere to punctuality and discipline in India, while the very same people become law abiding when they go abroad. 'Good Governness' is based on the element of people's participation & therefore people should not only be aware of their rights but also duties. Poster Making Competition was organized on 30 Jan, 2019 on the topic 'Election, Good Governance & Democracy', and also on 'Gandhiji to mark the death anniversary of Mahatma Gandhi.' who helped India achieves Independence. On 1<sup>st</sup> Feb. 2019, workshop was organized to raise awareness among students for online registration for Voter ID card. The workshop was conducted by Shri. Nilesh Sonawane, Election Officer who guided the students how to do online registration. Many students asked queries regarding online registration and how to make correction or change of address & know the status of Voter ID card. Offline registration forms were also given by the officer to students to register offline. The awareness program for registration was started on 25<sup>th</sup> Jan, 2019 & conducted till 09<sup>th</sup> Feb, 2019 with help of chief Election officer & Student Ambassador Team. An Essay writing competition was organized on the topic 'Election, Good Governance & Democracy' on 2<sup>nd</sup> Feb, 2019. 'Best Selfie Contest' was organized in which students participated with different backgrounds on the theme, "Yes, I will exercise my Right to Vote'. A prize distribution was organized to distribute prizes & certificates at the hands of Vice-Principal Dr. R. J Andrew on 11<sup>th</sup> Feb, 2019.

**Inter-collegiate Photography Competition**  
**14<sup>th</sup> August, 2018**  
**Topic - 'Photographs of Heritage Sites (Building) of Nagpur Region'**

An Inter-collegiate Photography Competition on the topic 'Photographs of Heritage Sites (Building) of Nagpur Region' was organized by the History Department. The programme began with the lighting of the lamp by the Principal, Vice-principal, Judges and Head of History Department. Principal Dr. Dipti Christian was the chief guest for the event. The judges for the programme were Dr. Jyoti Khadse, Head, Dept. of History, Dhanwate National College, Nagpur, Dr. Suchismita Mishra, HOD Department of History, VMV College, Nagpur and Dr. Anjali Gaidhane, HOD Department of Political Science, Hislop College, Nagpur. The Principal addressed the gathering and also explained the importance of studying History and also spoke on why students need to participate in events and how this moulds a student's personality. 28 students participated in total. A photograph of Vishweshwar Temple located at Shukrawari Lake was one of the main attractions of the event. A Victorian style British Architecture the General Post Office was also spotted in the event. Photographs of Deeksha Bhoomi and Agnes memorial church caught people's eye. People were surprised to know that St. Joseph's convent was more than 100 years old, and that it is a heritage building. Judges were glad to see the photographs of Sitabuldi Fort in competition with Vidhan Bhavan. Vidhan Bhavan is a major political center of Vidharbha region. Photographs of the SFS Cathedral – the Replica of Italian master Leonard- da-Vinci's master piece. Bishop Cotton School, St. John School and SFS Scholl were also present in the competition. The 1<sup>st</sup> prize was shared by Atharv Shionkar, (Photograph of Munshi Mandir) and Sunny Singh (Photograph of Kalyaneshwar Temple). The 2<sup>nd</sup> prize was won by Anirudh Sambhare (Vishveshwar temple) and the 3<sup>rd</sup> prize was again shared by Andre Gonsalves and Aboli who's posters equally decorated and stunning.

## Science Talk Series – 2017-18

### I. Dr Dilip Ghosh September 25, 2017

**TOPIC:** Diagnosis Characterization & Management of Virus and Virus like Diseases of *Citrus*

**OBJECTIVE:** Engendering Scientific Awareness on Contemporary Scientific topics

**PARTICIPANTS:** 69

On September 25, 2017 the Department of Botany organized the first Science Talk of the session with the presence of eminent scientist from ICAR-Central Citrus Research Institute, Nagpur. Dr Ghosh addressed the students on 'Diagnosis Characterization & Management of Virus and Virus

like Diseases of *Citrus*'. Dr Ghosh began his deliberation introducing the students to the current scenario of Citrus in terms of agronomy and pathological research. He explained the diversity of diseases that Citrus species suffer with and he elucidated the step wise detection techniques starting with isolation of diseased plant material followed by extraction of genetic material, performing RT-PCR, Cloning and then generation of Antibody with suitable test animal. He further briefed the students on disease control measures. Dr Ghosh shared interesting details about biotic control of the vectors of the virus. The talk was highly motivational.

### II. Prof. Ashwini Kumar Srivastava and Dr.Rashmi Srivastava December 27, 2017

**TOPIC:** Paleobotany and Deccan Intertrappean Flora of India

**OBJECTIVE:** Value addition with expert talks on core topic.

**PARTICIPANTS:** 31

A scientific interface on 'Paleobotany and Deccan Intertrappean Flora of India' was organized by the Department of Botany on 27th December 2017. Prof. Ashwini Kumar Srivastava and Dr. Rashmi Srivastava from Birbal Sahni Institute of Paleosciences were cordially invited by the department to interact with

the students. Dr. Ashwini Srivastava explained about the types of plants that lived long ago and how the subject helps us to know more about what life on Earth in the distant past. It is also possible to gather detailed information about the climate of the past just by examining fossilized plants he further added.

The second session was conducted by Dr. Rashmi Srivastava also a senior scientist with BSIP. In her session she spoke on Deccan Intertrapps as Nagpur forms a significant part of the Deccan Intertrapps. The Deccan Traps are one of the largest volcanic provinces in the world with a terrace like appearance which is characteristic feature of these beds. She further shared

the details of her work on fossils from these beds ranging from algae to the higher forms of Angiosperms.

## 2 Day Students' Workshop by Make Intern: Spring Fest IIT

Kharagpur

### REPORT

The Department of Botany, Hislop College in collaboration with Make Intern & Spring Fest IIT Kharagpur, organized a Two Day Students' Workshop on the topic "Understanding Complexities of Life, from Molecules to Systems", on October 6 & 7, 2017. The guest mentor for the programme was Mr. Mallikarjun B G, who is a Scientist at Thomas Fisher and a certified Spring Fest IIT mentor. A total of 54 participants, pursuing graduate and post-graduate courses in various fields of

Life-Sciences, partook in this workshop. This exercise was carried out with the motive of providing technical exposure to the students with hands on training on some basic and relevant

biotechnological protocols.

## *Inter-collegiate Elocution Competition*

This competition was organized on 12<sup>th</sup> August, 2017. Dr. T. Bannagare, Head, Department of History, Late Vasant Rao Kolhatkar Arts College, Rohna, Arvi, Dist. Wardha and Dr. A. Vaidya, Assistant Professor, Department of Political Science, Hislop College were the judges for the competition. Topic of the competition was 'Role of Social Reformers in Making of Modern Maharashtra'. 49 students from various colleges participated in the competition. Deepali Tekam, Ambedkar Law College got first prize. Prachi Agrawal, Ambedkar Law College got 2<sup>nd</sup> prize and Aishwarya Tiwaskar, Hislop College got 3<sup>rd</sup> prize. Kalyani Surwanshi, Renuka Mahavidyaya, Megha Bhangе, Nutan Adarsh Mahavidyalaya, Umred and Damini Bhangе, Kamala Nehru College got the consolation prizes.

*A. Andrew*

**Dr. (Mrs.) Anjali R. Andrew**  
Head  
Department of History  
Hislop College, Nagpur.

## ***Inter-collegiate Poster Making Competition***

Department organized Inter-collegiate Poster Making Competition on the topic 'Art and Architecture during Mughal Era' on 12<sup>th</sup> August, 2017. 50 students Students from various colleges like S. F. S. College, Srimati Binzani Mahila Mahavidyalaya, Santaji Mahavidyalaya, Kamla Nehru College, Nutan Adarsh College, Umred, Ramdeobaba College of Engineering and Management, S. B. City College, V. N. G. I. A. S. S., Babasaheb Ambedkar Law College etc. participated in the event. This event was organized to acquaint the students about the great golden era of Mughal art and architectures and also to enhance the creativity of the students. Dr. T. Bannagare, Head, Department of History, Late Vasantrao Kolhatkar Arts College, Rohna, Arvi, Dist. Wardha. and Dr. A. Vaidya, Assistant Professor, Department of Political Science were the judges for the competition. Both the judges congratulated the department for organizing the competition and praised the students for the poster they made. Vaishnavi Khode, Hislop College won the first prize. Srihari Tote, Hislop College won the second prize and Atish Bhusari, Hislop College won the third prize. Poonam Raghvani, V. M. V. College and Nikita Kayaskar, Smt. Binzani Mahila Mahavidyalaya won the consolation prizes.

## *Coin Exhibition*

Coin Exhibition was organized by the department on 12<sup>th</sup> August, 2017 in the 'Shalom' College Auditorium. The main objective of the event was to give the real view of the coins used by our ancestors during medieval and modern times. These coins were collected by Dr. Tirthnandan Bannagare who is a budding coin collector and also working as a head of the department of History, Late Vasant Rao Kolhatkar Arts College, Rohna, Arvi, Dist. Wardha. Coins from 1835 to 2010 were put in the exhibition. Dr. Bannagare interacted with the students and satisfied their queries.

## *Guest Lecture*

The year 2017 is a landmark year as it is the 75<sup>th</sup> year of 'Quit India Movement' and 70<sup>th</sup> year of India's Independence. Keeping in view the importance of this year and to commemorate the great events and sacrifices of our revered freedom fighters, department organized two guest lectures on **26<sup>th</sup> August, 2017**. For this event, Dr. Purbi Bhattacharya, Head, department of History, S. F. S. College and Dr. Shyam Koreti, Associate Professor, P. G. T. D. of History, R. M. Nagpur University, Nagpur were the two eminent guest speakers. The main objective of the programme was to sensitize the students towards the freedom struggle and Quit India Movement which led to securing of India's Independence.

## Science Talk Series – 2016-17

### I. Dr R S Badere September 19, 2016

**TOPIC:** Site directed mutagenesis

**OBJECTIVE:** Value addition with expert talks on core topic

The Department of Botany, under the banner of “Science Talk” collaborated with Department of Botany, RTM, Nagpur University, Nagpur to organize a lecture on ‘Site Directed Mutagenesis’ on 19<sup>th</sup> September 2016. The speaker for the programme was Dr R. S.

Badere, Assistant Professor at Department of Botany, RTM, Nagpur University. He introduced the students to the very basic of Mutagenesis and specially emphasizing on Site directed Mutagenesis. He discussed the Spontaneous mutation, enormity of Recombinant technology. He explained the use of PCR in site directed mutagenesis.

### II. Dr S B Nandeshwar February 4, 2017

**TOPIC:** Development of genetically modified cotton for insect and disease resistant using *Agrobacterium tumifaciens* and Meristem cell

**OBJECTIVE:** Value addition with expert talks on core topic

The Department of Botany, organized a lecture on ‘Development of genetically modified cotton for insect and disease resistant using *Agrobacterium tumifaciens* and Meristem cell’ on 4th February 2017.

The speaker for the programme was Dr S.B. Nandeshwar, a Principle Scientist at Central Institute for cotton Research, Nagpur. He addressed the students pursuing post graduation in

## II. Dr. S B Nandeshwar

The Department of Botany, organized a lecture on 'Development of genetically modified cotton for insect and disease resistant using *Agrobacterium tumifaciens* and Meristem cell' on 4th February 2017.

The speaker for the programme was Dr S.B. Nandeshwar, a Principle Scientist at Central Institute for cotton Research, Nagpur. He addressed the students pursuing post graduation in the department. He introduced the students to the very basic of Transgenic plants and specially emphasizing on development of genetically modified cotton for insect and disease resistant using *Agrobacterium tumifaciens* and Meristem

cell. Further in his talk, Dr Nandeshwar explained the discovery of *Bacillus thuringiensis*, isolation of Cry IA protein and its use for creating disease resistance plants. Dr Nandeshwar delightfully took questions from the students and interacted with them.

## III. Dr. N.M.Dongarwar

The Department of Botany, under the banner of "Science Talk" organized a lecture on 'Programmed Cell Death. The speaker for the programme was Dr N.M. Dongarwar, who is an Assistant Professor at PGT Department of Botany, R.T.M. Nagpur University, Nagpur. Dr. Dongarwar introduced the students to the

concept of programmed cell death. He discussed the types of cell death, and also emphasized on importance of PCD in the life cycle of plants. Further in his talk, Dr Dongarwar, discussed in details about senescence, and types of senescence. Dr Dongarwar delightfully took questions from the students and interacted with them
