In her inaugural speech the Principal lauded the efforts taken by the Women's Studies and Development Centre. The principal stressed that each and every student should contribute their best to the social issues which are prevalent in the society. Also every individual should be gender sensitized so that they become valuable citizens of this country. Dr. (Mrs.) Sneha V. Deshpande spoke on 'Gender development' in India. She gave a detailed analysis on the studies done by her in Vidarbha. She gave a feminist approach to understand and address the disparate impact that the economic development and globalization have on people based on the gender, location, class and socio-political identities. This is an economic approach to view country's development in terms of job creation, inflation control and high employment. These aim to improve the economic wellbeing of the country and also the quality of life for its people.

The programme concluded with the vote of thanks.

Programme: Workshop on Gender Sensitization

Day & Date: Monday, 23rd September 2019

The Women's studies and Development Centre in collaboration with Human Rights and Opportunity Cell conducted a Workshop on Gender Sensitization to make the student members gender sensitive and create positive social norms that value the girls and their rights. The topic was on "Sexual Objectification of Women". The resource person for the day was Mr. John Landge, Master Trainer, Human Resource Development. Dr. Anjali Andrews, Overall In charge, welcomed the guest. Miss. Dipti Chandani, Executive member of the cell compered the session.

The workshop started with a word of prayer by Miss. Sakshi Wandhare. Miss. Dipti Chandani was the compere for the programme. A brief introduction was given about our Resource person, Mr. John Landge by Miss. Aishwarya Tiwaskar. An introduction to the topic was given by Mr. John Landge and the following short films/ads were screened:

1. Ahalya: The short film is based on a mythical story of Ahalya with a feminist angle to the story.
2. Stand Up Against the Harm Caused by Objectification of Women in Advertising
3. What our kids see? It's about the view of kids about the advertisements they see every day, where they see the women as objects.
4. TEDx Dangerous ways advertisements see women. The talk was given by Jean Kilbourne. Her TED Talk reveals that the ads have victimized women based on their physical experience.
5. Vir Das's take on modern day sexist advertising in this hilarious new video for HE Deodorant and join them as they take a refreshing stand against such meaningless objectifications with the launch of their new variant, HE RESPECT.

After the screening, the resource person initiated the discussion between the student members. It was an interactive session. The students participated in the discussion actively and shared their views. The session concluded that Sexual objectification contributes to harmful gender stereotypes that normalize violence against girls but also for boys. Also, boys see how their bodies are portrayed in relation to girls and internalize the notion that success and attractiveness are tied to dominance, power and aggression. It was decided that we should stand up against Objectification of both the sexes and create a better world for everyone regardless of gender.

The workshop concluded by presenting a memento to Mr. John Landge and vote of thanks by Miss. Saubia Rahman.

Certificate Course in Gender Studies and Women's Development - 2020

Since decades, there is widespread discrimination against women and other vulnerable groups from different walks of life. This discrimination is against universal human rights principles of equal rights and respect for human dignity. Discrimination hampers the full participation of women in the political, social, economic and cultural life of the country. These adverse trends reflect in the overall growth of women, their families and society as a whole.

The change in attitude and behavior towards women is a transformative process, requiring long term commitment as well as a provision of knowledge and techniques to create a society which recognizes the significance of promoting gender equality

Hislop College has taken the initiative to inculcate in its students a spirit of inquiry into the dynamics of gender equality and facilitate transformative change in attitudes, beliefs in relation to gender. Assuming that this transformative change would have a ripple effect, as students become agents of change in the wider society we live in

With this purpose the certificate course in Gender Studies and Women's Development 2020 aims at transformative learning and enabling learners to become agents of change in facilitating a healthy perspective towards gender, human dignity and mutual respect.

Objectives of the Course

1. To stimulate greater insight into gender equality and gender related issues.
2. To help students develop a wider perspective of issues concerning women through exposure visits and interactive learning.
3. To enable students to grasp the concepts and techniques in relation to gender through individual and group projects and presentations.
4. To motivate students to become gender sensitive change agents in their neighbourhood.

Duration of the Course: 30 hours

Time of Sessions: 12:00 p.m. to 02:00 p.m. including lecture and group work

Venue: AV room / SHALOM auditorium, Hislop College
